

NOUR 365
DIGITAL TRANSFORMATION

CAPABILITY STATEMENT

Project Management | Construction Management |
Digital Project Management

COMPANY OVERVIEW

Nour 365 delivers project delivery systems and digital operations for construction, utilities, and infrastructure programs. We help teams tighten scope control, stabilize schedules, improve documentation discipline and produce client-ready reporting—so field execution stays predictable and closeout is clean.

CORE CAPABILITIES

- Project Delivery Leadership (scope, schedule, cost, change control)
- Project Controls & Performance Reporting (baselines, KPIs, recovery support)
- Stakeholder & Authority Coordination (utilities, municipalities, third parties)
- Documentation, Compliance & Quality Management (RFIs, submittals, permits, QA/QC)
- Construction Closeout & Turnover Readiness (as-builts, punch lists, handover packs)
- Field-to-Office Execution Support (cadence, action tracking, risk/issue management)

DIFFERENTIATORS

- **\$50M+ multi-sector infrastructure delivery experience**
- Strong “from-permits-to-handover” discipline—reduces rework and accelerates closeout
- Builds practical systems that foremen, superintendents, and PMs use
- Rapid mobilization: deliver a working reporting & documentation cadence in **10–15 business days**
- Clear governance: decision logs, escalations, and accountability to protect schedule and cost

PAST PERFORMANCE

Representative experience (Founder):

- Water, sewer, TSE, telecom, ITS, and roadway programs—permits, submittals, construction, turnover
- Managed complex stakeholder environments (owners, municipalities, utilities, consultants, subs)
- Controlled documentation ecosystems (RFIs/submittals/shop drawings/as-builts/turnover packages)
- Drove schedule/cost predictability through disciplined tracking, reporting, and risk management

COMPANY DATA
